

Project Proposal: InvestConnect

Project Title: InvestConnect – A Virtual Business-Investor Matching Platform

Objective: InvestConnect is a web-based platform designed to connect **Business Owners** with potential **Investors**. The project aims to simplify the fundraising process by providing a central marketplace where owners can showcase their ventures and investors can find opportunities that match their specific budget and industry interests.

Key Features:

1. **Investor Registration:** A dedicated signup flow for investors to create an account with their basic contact details.
 2. **Business Owner Registration:** A separate signup flow for entrepreneurs to create a profile for their business ventures.
 3. **Role-Based Login:** A secure login system that directs users to either an "Investor Dashboard" or an "Owner Dashboard" based on their account type.
 4. **Industry Category Manager:** A system-wide list of 8 specific industries (e.g., Medicine, Tech, Hospitality) that organizes all platform content.
 5. **New Business Submission:** A multi-field form for owners to input business name, description, and industry category.
 6. **Financial Data Input:** A specific section for owners to list "Minimum Investment Required" and "Annual Profit/Turnover."
 7. **Investor Budget Settings:** A feature for investors to set and update their minimum and maximum investment capacity.
 8. **Investor Interest Preferences:** A checklist where investors select which of the 8 industries they are interested in funding.
 9. **Automated Match Feed:** A customized home screen for investors that only shows businesses matching their budget and industry choice.
 10. **Global Business Search:** A search bar that allows users to find businesses by keywords in their name or description.
 11. **Category-Based Filtering:** A sidebar filter to quickly sort business listings by their industry (e.g., show only "Hospitality").
 12. **Financial Range Filtering:** A filter to view business listings based on their required investment amount (Low to High).
 13. **Personal Watchlist:** A "Save" feature that allows investors to create a private list of businesses they want to review later.
 14. **PDF Pitch Deck Upload:** A file upload feature for business owners to attach a PDF business plan to their profile.
 15. **Admin Approval System:** A dashboard for an Admin user to view all new listings and "Approve" them before they go public.
